

## **Eagle Roofing Products Announces New “Signature Blends of Blends” and Title 24 Color Lines**

*Eagle Roofing Products, the industry’s leader in color and product innovation, announced the addition of their Title 24-compliant and new Eagle Signature Blends of Blends color lines to their already extensive selection.*

Rialto, CA ([PRWEB](#)) May 27, 2014 -- Eagle Roofing Products, the industry’s leader in color and product innovation, announced the addition of their Title 24-compliant and new Eagle Signature Blends of Blends color lines to their already extensive selection.

Available July 1, the 17 new Signature Blends of Blends colors will emulate the classic look of real clay tiles with natural color blends that will allow greater flexibility in creating the most traditional to the most contemporary roof designs. The new colors come in an effort to offer even more options for combining the aesthetics of various natural products with the durability and longevity of concrete.

In addition to the Signature Blends of Blends line, Eagle offers 101 colors approved by the Cool Roof Rating Council (CRRC), more than 80 percent of which comply with the latest California Title 24 standards for new construction and reroof projects. The addition of 14 new compliant colors brings the Title 24 offering to 82, by far the largest selection in the industry.

Tyler Allwood, Director of Technical Services and Systems, said in a statement, “The Eagle team is excited for the launch of our new color lines. We are thoroughly committed to ensuring our partners and customers always have the largest selection of colors for any project when choosing Eagle Roofing tiles.” He added, “The new Title 24 standards have challenged us to further increase our compliant selection and I believe we greatly exceeded expectations.”
