# SIMPLE. *elegant*. SOLUTIONS.

from a company you can trust

## Eagle is Curb Appeal and Infinite Choices

- Choose from an extensive collection of profiles, textures and dimensions
- Vast color offering in standard integral, ranges and multi-color blends
- Flat tiles offer a crisp, clean appearance for Modern, Colonial, Craftsman, French Provincial and Tudor architecture
- High profile Barrel tiles are beautiful and timeless, ideal for Mediterranean architecture
- Medium profile tiles complement Modern architectural designs, in addition to large commercial or residential buildings
- Concrete tile is the ideal alternative to slate, wood, stone coated metal, and asphalt roofing materials
- Tile roofs enhance curb appeal and maintain the value of the structure over time

## Eagle is Peace of Mind

- USA Owned. USA Made.
- Best warranty in the industry
- Our tile is tested to the highest standards in the industry for fire, high-wind and freeze-thaw protection\*
- Our customer service, sales and technical departments are here for you before, during and after the sale
- Our products are affordable and environmentally friendly

\*Excludes color bonded/slurry tiles.

Golden Eagle Staggered  
1699 Charcoal Range

# Flat Profiles

*Limitless options without compromise, Eagle's Flat Tile profiles offer graceful beauty, rugged strength and enhanced curb appeal. Available in a vast array of colors from warm earth tones and cool grays to refreshing natural hues ranging from green to eggplant—its crisp appearance complements both traditional and modern architecture. Depending on the look you are after, our Flat Tiles can emulate the texture and style of natural materials such as wood shake, clay and slate – and are a more affordable alternative. See for yourself.*

*Concrete roof tile never looked so good.*

Bel Air  
4602 Concord Blend

# Bel Air

PER 100  
SQ FT

**88.5** Tiles (3" headlap)  
**970** Pounds (approx.)

*Sometimes, the beauty is in the simplicity of the design. The Bel Air profile is a flat, smooth tile that offers clean lines and versatility to use on a variety of different architectural styles. Plus, it allows you to go heavier on other exterior elements such as pavers, stonework and landscaping, all of which will dramatically complement your Bel Air concrete tile roof. The choices are endless!*

*This is an inspirational slate photo. Eagle's products in the next few pages will emulate the luxurious nature of slate at a more affordable price.*

# Slate *Inspiration*

*Around for centuries, slate is a beautiful roofing material that has been used on some of the world's greatest buildings. However, the weight and expense of slate has made it an unattainable commodity for many—until now. Eagle Roofing Products has created a distinguished, gorgeous collection that has been inspired by the oldest roofing product on earth. Emulating the look, feel and longevity of natural slate, our Tapered Slate and Textured Slate lines provide contrast and character to your residential or commercial roof in ways that appear subtle, yet distinctive.*

*Quality craftsmanship and architectural prestige, at a fraction of the cost of real or synthetic slate; that's what you can expect from our Slate Inspired collection.*

A.SRI actual: #. A.SRI calculated: #. Yellow highlighted calculation indicates an A.SRI of 16 or greater. \*Color bonded/slurry tiles not recommended in locales subject to repeated freeze-thaw cycles. Notice: To ensure your satisfaction with your tile choice, we request you obtain a current tile sample; or request addresses in your area from your local Design Center/Eagle Representative.

Capistrano  
SCC 8830 Albuquerque Blend

# Barrel Profiles

*Inspiration that will move you... Eagle's high and medium barrel shaped profiles exude rich colors, unmatched aesthetics and timeless elegance. Whether you are looking to emulate the authentic look of Spanish tile in the Old World or wish for a more contemporary style while mirroring the Mediterranean appearance found in the roofscapes of Italy, France and Greece; you can rest assured that your curb appeal will be the envy of everyone in your neighborhood.*

Capistrano  
3636 Piedmont Blend

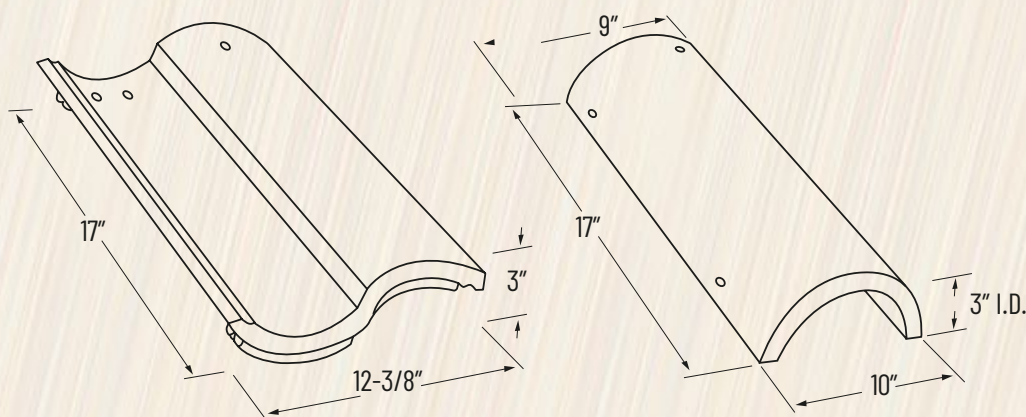

# Capistrano

PER 100  
SQ FT

**88.5** Tiles (3" headlap)  
**900** Pounds (approx.)

*A high S-profile tile, our Capistrano is semi-cylindrical and is the most traditionally recognized of all tile profiles. While you may think a Capistrano tile roof is suitable for only Spanish or Italian architecture, it actually offers stunning good looks that work well with any style, as it pairs nicely with stucco, stone or brick siding. It is used widely on residential, commercial, military and institutional buildings throughout the United States.*

Malibu  
2526 Valencia

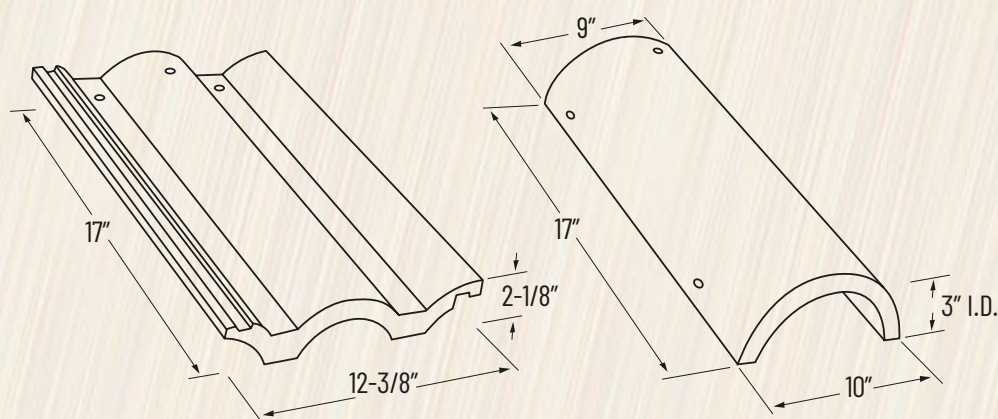

# Malibu

PER 100  
SQ FT

**88** Tiles (3" headlap)  
**903** Pounds (approx.)

Malibu tile has gentle curves, which adds visual interest and striking effects, easily complementing modern architectural designs and large buildings. It's particularly effective on distinctive homes, apartments, hotels, places of worship and commercial structures. It's the best of both worlds, where Mediterranean meets Contemporary.

# *Signature* Blends of Blends

***Lush Blends + Personal Style = Stunning Color Combinations***

*A refined twist to playing with color, our Signature Blends of Blends line emulates the classic look of real clay tiles with natural blends that allow greater flexibility in creating the most traditional to the most contemporary of roof designs. Use our virtually limitless color palette to create a distinct blend for your residential or commercial project. A **handcrafted work of art**, we encourage you to go ahead and explore the possibilities.*

# Inspiration That Commands Attention

*Oakey browns, warm coppers, rusty golds, charcoal hues, plum undertones...*

*This is just a snippet of the color options you have at your disposal to create your own custom Signature Blends of Blends. Your sense of style will shine through with captivating color blends that will make your roof and your home uniquely yours.*

## Achieving the Signature Blends of Blends Appearance

**The blends featured are a small sampling of the vast color possibilities available. Note some colors may not be available in your area.** To create your own Signature Blends of Blends look, we encourage you to contact your local Eagle Account Representative who can assist you in this process. Signature Blends of Blends do not come pre-packaged or blended in the pallet and are to be purchased individually. Eagle Roofing Products recommends that you discuss the design effect and percentage of each color with your Roofer, prior to installation, to ensure that you achieve the desired look and that no hot spots (patches of color that undo the blended effect) are created. Your Roofing Contractor is responsible for blending the colors during the loading of and installation of the tiles in order to create the Signature Blends of Blends design, ensuring that the placement of the tile is completed in an aesthetically pleasing manner.

Capistrano—Boosted  
3645 Sunrise Blend

# *Boosted Capistrano* Accessories

*Seeking the genuine look of old Spanish tile without the premium cost of a clay roof? Realize your vision with Eagle's Boosted Capistrano. Your home will dazzle with rustic touches of Old World charm that bring the genuine look of natural clay to life. All this with the peace of mind that your concrete tile roof is designed to last the life of your structure, while adding undeniable character to your exterior space.*

# Boosted Capistrano Accessories

*It's easy to create the beauty of an authentic mortar-boosted clay roof with our Boosted Capistrano accessory pieces. Available in a wide range of colors, these pieces were designed to complement your Capistrano tile. For best results, mix your Boosted color and base color as this will add to the authenticity of your roof.*

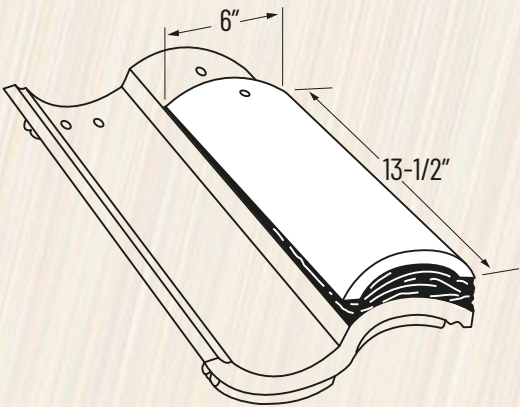

**Considerations:**

- Choose a Boosted accessory piece to go with your base tile. For color options, please contact an Eagle Account Representative.
- Decide on the look that you want. Prefer a neater treatment? Want a more authentic look?
- Decide how much boost you would like.

No matter what type of Boosted application you choose, your new Eagle Boosted Capistrano roof will be sure to impress.

% used on roof	Approx. installed weight field tile per 100 sq ft
10% Application	990
20% Application	1080
30% Application	1170

Each Boosted  
piece weighs  
approximately  
4.8 lbs.

approx. 20% Overall Boost | approx. 1080 lbs per square

approx. 30% Overall Boost | approx. 1170 lbs per square

# About Title 24

*California's Title 24 energy standards address the energy efficiency of new construction of, and additions and alterations to, homes and commercial buildings. Since buildings are one of the major contributors to electricity demand, the goal of Title 24 is to reduce energy consumption in California for its energy future.*

# Creating a Greener California

## 2013 California Title 24, Part 6 Requirements — Understanding How It Affects You

Effective July 1, 2014, the Title 24 Roofing Code establishes new requirements to promote the installation of “Cool Roofs” in Low Rise Residential Steep Slope Construction. Cool Roofs are roofs consisting of materials that reflect the sun's energy from the roof surface, as well as have high emissivity, allowing them to emit infrared energy. Thus, significantly reducing energy costs and urban heat islands.

Eagle Roofing Products is committed to adhering to the California Energy Commission's energy standards by providing our Customers with Cool Roof concrete tile solutions that not only meet the new requirements, but deliver the beauty, durability and value that you've come to expect.

### How does Title 24 Impact You?

- **Builders:** All new permits and buildings must comply
- **Architects:** Must plan for the new energy efficiency requirements
- **Roofers:** Can differentiate by knowing the new code

### New Construction

**Performance Model**—With the Performance model, any product can be used. Using the California Energy Commission's approved software to demonstrate compliance for the entire building is the preferred path.

- Even if SR, TE or SRI are below the requirements
- As long as the total energy budget is met
- Uses trade-offs within the calculator (i.e: higher efficiency windows, HVAC, etc.)

**Prescriptive Compliance**—Compliance measures vary with climate zones. No trade-offs allowed.

### Re-Roof and Alterations

The Prescriptive Method for additions/alterations, reroof Climate Zones 10-15 are SR 20, TE 75, or SRI of 16, alternate compliances listed below:

- Re-roof alterations are less than 50% of the existing roof
- Home addition has less than 300 square feet of roofing
- Minimum R38 attic insulation is used
- Greater than R4 above deck insulation Climate Zones 10-15 only
- There is no duct work in attic or existing ducts are insulated and sealed (see governing codes for your city)
- High profile tile is used (rise to width ratio of 1:5 when installed)
- Elevated battens are used
- Radiant barrier plywood

Requirements vary by zone, depending on the building and the climate method. [See map on opposite page]

To see which climate zone your project is in and the requirements associated with your building structure, visit the CEC's website:

[www.energy.ca.gov/maps/renewable/building\\_climate\\_zones.html](http://www.energy.ca.gov/maps/renewable/building_climate_zones.html)

Look for our **T24** indicator on the product pages to see which ones qualify for Title 24.

# Why Eagle Roofing Products and Concrete Roof Tile

*Eagle Roofing Products is the largest, USA owned concrete roof tile manufacturer in the United States. For over 25 years, we have excelled in providing our customers with durable, energy efficient and environmentally friendly concrete roof tiles that are beautiful and timeless.*

# Eagle Roofing Products

*Whether you are building a new home or re-roofing your existing one, your home deserves the best roof possible. When you choose Eagle concrete tile, you'll get a roof that is aesthetically stunning, durable and sustainable.*

Founded over 25 years ago by Robert Burlingame, Eagle began operations in the fall of 1989 with one high-pressure concrete tile extrusion machine. Today, Eagle's Rialto, California facility is the largest in North America. In addition to Rialto, we operate facilities in Phoenix, Arizona as well as Stockton, California and Sumterville, Florida meeting the demand for concrete roof tile across the United States and Canada.

Our expertise, coupled with our extensive array of profiles and colors, enables us to provide our customers with high quality concrete roofing products that are beautiful, long-lasting and environmentally friendly.

Eagle's long experience in the roof tile industry and dedication to prompt personal response to its customers' needs have resulted in a well-deserved reputation for quality and service—a reputation that is unmatched.

*Eagle is customer service.*

# Unsurpassed Beauty, Strength and Longevity

When you choose a concrete tile roof from Eagle Roofing Products, you are choosing years of protection and peace of mind. Our tile is tested to the highest standards of the industry. A properly installed Eagle Tile Roof will withstand the elements through rain, snow, high wind and scorching heat – outperforming all other roofing products, while remaining aesthetically stunning.

**Fire Tested** – Eagle Roof Tile is a Class A roof covering that will protect your home and personal property.

**High Wind Tested** – Installed correctly, Eagle Roof Tile can survive the strongest storms and harshest weather. Eagle tile is tested and approved

for use in the Miami Dade high velocity hurricane zone, withstanding sustained winds of up to 180mph.

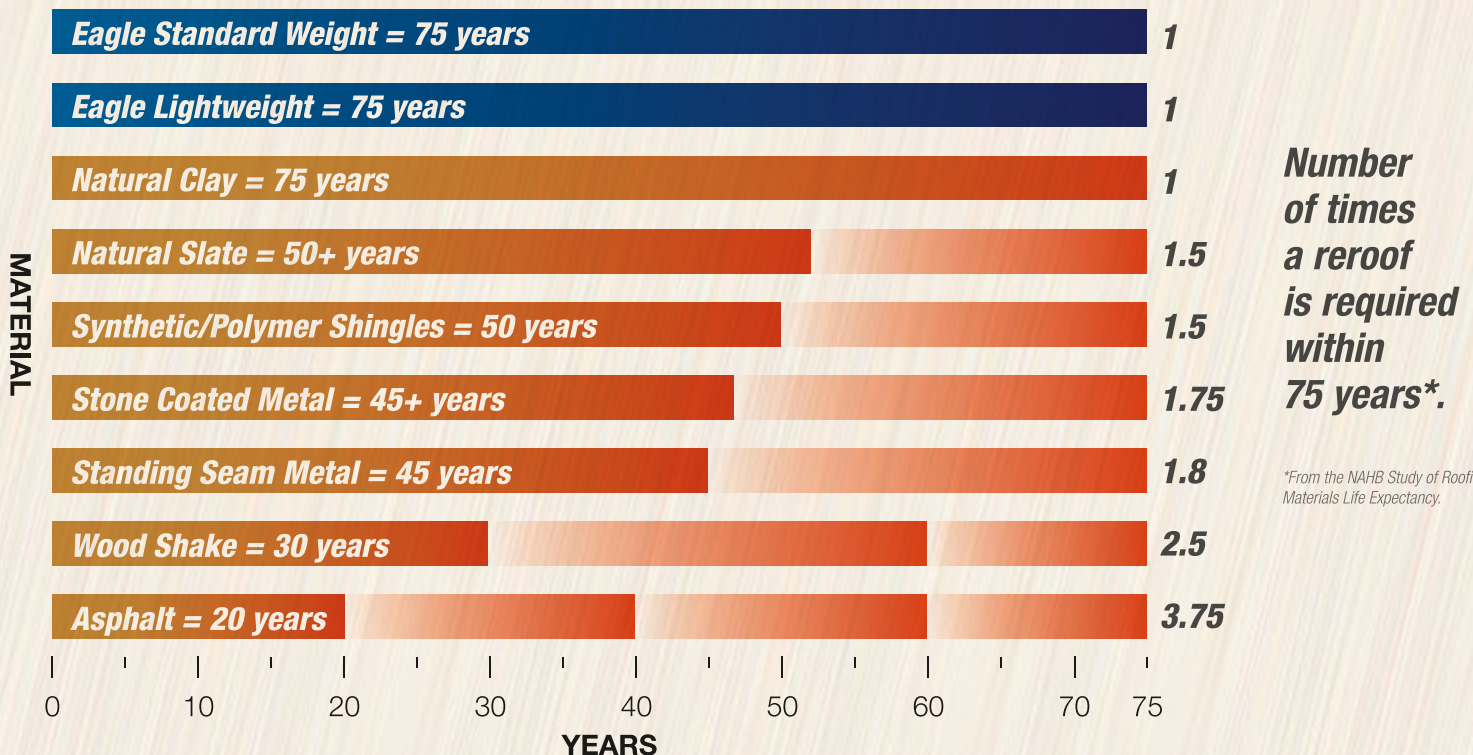

**Hail/Impact Tested\*** – Concrete roof tile stands up to hail, as well as or better than, any other roofing product. Some insurance companies offer discounted premiums for houses with tile roofs because of its impact resistance. *\*Arizona and Florida manufactured tiles only.*

**\*Freeze Thaw Protection** – Eagle Roof Tile passes Freeze-Thaw requirements. *\*Excludes color bonded/slurry tiles.*

## Roofing material lifespan over 75 years.\*

# Tile Roofing Is Simply The Superior Choice

New Construction • Reroof • Residential • Commercial

**Tile.** Sustainable, aesthetically superior protection.

**Asphalt Shingle.** Temporary, basic roof covering.

## HOW DOES TILE COMPARE TO ASPHALT SHINGLES?

- Real tile roofs are no longer only “round and red”. Tile roofs are available in a variety of profiles and colors.
- Tile roofs are produced from ALL natural products - concrete or clay.
  - Tile roofs are not plastic, resin, rubber or metal.
  - Tile roofs do not warp, rust or bend.
- Tile roofs are heavier than asphalt shingles. Weight equates to longevity, thermal superiority, weather, impact resistance and much more.
- Tile roofs invite extreme weather conditions, while asphalt shingle manufacturers base their sales projections on how many of their roofs will need replacing every year.
  - Tile can withstand sustained winds of up to 180mph\*
  - Class A Roof Covering
  - Freeze-Thaw (Excludes color bonded/slurry tiles)
- Asphalt shingles are not distinctive.
- Asphalt shingles are not environmentally friendly, as they are a petroleum based product and fill landfills.
- Asphalt shingles do not perform well in hail storms. Roofers swarm neighborhoods subjected to the slightest hail storm.
- Synthetics and plastic products lack a proven track record as a long-lasting and durable roofing product.
- Asphalt shingles are easily damaged by high winds, especially after they age, dry out, lose granules and crack.
- Shingles are not resistant to extreme temperature variations, lending to cracking and loss of color, as they are dependent on granules that are temporarily adhered to the shingle.

# Manufacturing Facilities Servicing

**Every customer is different. Every project is different. We understand.**

Whether you are an Architect, Builder, Designer, Distributor, Roofer or Homeowner, with four manufacturing plants servicing the United States and Canada, our customers can rest assured that we have the right products to meet their needs. Quality products and customer relationships are the core of our business. That's what inspires us to be your company of choice. That's what makes us different.

## Specifying Eagle

Every effort has been made to provide you with the tools you need to specify Eagle on your next residential or commercial project. You can find these tools on our website at [www.eagleroofing.com](http://www.eagleroofing.com) under the main tab Resources – Design Professionals.

## Installation

Eagle recommends that you find a licensed and insured Roofer for all of your roofing needs. Detailed installation recommendations can be found in the *Concrete and Clay Roof Tile Installation Manual (July 2015)* published by the Tile Roofing Institute & Western States Roofing Contractor Association. For further information, please visit: [www.tilerroofing.org](http://www.tilerroofing.org)

## Blended Tile

Blended tile provides added value and beauty to any architectural structure. However, it requires careful placement by your Roofing Contractor, who is responsible for ensuring that the placement of the tile is completed in an aesthetically pleasing manner. Eagle Roofing Products recommends that you discuss this design effect with your Roofer, prior to installation, to ensure that no hot spots (patches of color that undo the blended effect) are created.

## Warranty

As the largest USA Owned, USA Made concrete roof tile manufacturer, Eagle Roofing Products proudly stands behind its products with a Lifetime Transferable Limited Product Warranty. We recommend that all customers read our warranty for details and conditions, which can be found at [www.eagleroofing.com](http://www.eagleroofing.com).

## Disclaimer

Eagle Roofing Products concrete roof tile is made from natural materials and color variations are to be expected. Every effort has been made to ensure the colors in this brochure are as close to the actual roof tile; however, photographic and printing techniques can alter the printed colors shown, varying it from actual tile colors. In addition, colors are subject to change, as slight variations in color or flashing may occur during manufacturing. To ensure your satisfaction with the tile you chose from this brochure, we strongly recommend that you obtain a free tile sample from your Roofing Contractor, an Eagle Design Center or an Eagle Account Representative before placing your order.

# Eagle Design Centers & Manufacturing Facilities Servicing the United States and Canada
