**SECURE ROLL™**  
FLEXIBLE FLASHING

***Durable And Dynamic Support Designed To Protect***

*Eagle Roofing Products has partnered with our friends at Building Solutions to provide you with a high quality, resilient and incredibly flexible flashing. Cleverly created to withstand rain, wind, sun and snow, Secure Roll offers superior strength and protection you can count on.*

# Introducing Secure Roll

*Secure Roll is a flexible flashing used to make transition areas of a roof watertight. Easy to install and available in two different sizes, Secure Roll features a double release, fully-adhered back that enables you to **flash all of the significant areas of the roofscape prior to, during and after installation.***

20" X 16.5' Roll

11" X 33' Roll

When it comes to your roofing system, protecting your investment goes beyond choosing the right roof covering. As one of the thickest and most durable flexible flashing in the industry, this component comes backed with a **30-year warranty** to bring you peace of mind for years to come. *That's what sets us apart.*

## Features and Benefits

- 30-year warranty
- A fully adhesive back that adds strength and superior wind resistance
- A hydrophobic adhesive surface that allows installation in wet conditions
- Greater moldability
- Easy installation - sticks to itself without tools or heat
- Ability to apply directly to most construction materials without the need of additional fastening – can cut and shape it to any size you need
- Paintable surface
- Non-toxic and lead-free alternative
- UV resistant

## Specifications:

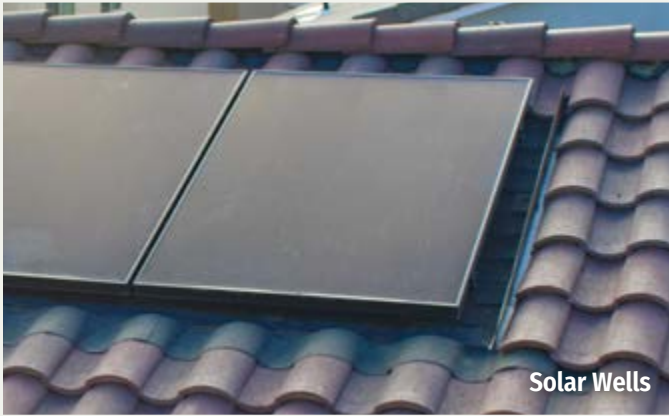

Rolls per Box	1
